1.3 Installing FSSU Chart of Accounts

1. Once you have installed the Sage 50 software you will need to setup a data set for your school.

The FSSU has created a standard company modified for schools and we recommend that you use this standard company to set up your school on the SAGE 50 accounts system.

- 2. The FSSU will email this customised company to you as an attachment. Save the attachment of the standard company to you desktop
- 3. The file name is FSSU and
 - 1. Select setting up a new company
 - 2. Login Name MANAGER
 - 3. Password leave blank
 - 4. In the first window, select
 - Restore data from a backup file go to your desktop and select the saved FSSU file.
 - Restore this file to Sage 50.
