

**Name:** Gerard Lawless  
**Number:** 353860748903

## Key Technical Skills

### Main Skills:

C#(2-4.5), VB.NET,MVC,ASP.NET, HTML, CSS, XML, JavaScript, T-SQL, SQL Server, SOAP, Mobile Development(Xamarin)

### Good working knowledge

IIS (6,7) , SVN, TFS ,Windows server 2008, Azure

## Educational Record

### 2009 Bsc. Computer Science(Honours) Institute of Technology Tallaght

- **Programming:** The course included modules in many programming languages such as Java, C#, C++ and Visual basic
- **Networking:** Completed modules in all aspects of networking such as LAN and WAN configuration. These modules focused on topics such as LANs, sub-netting, routing protocols and particular attention was paid to practical lab work involving configuration of Cisco routers and switches
- **Web Design and Development:** A large area of the course was devoted to web design and development covering such areas as best practises for web design, XHTML, JavaScript and server side technologies such as JSP and ASP.
- **Databases:** SQL was covered in detail for the retrieval and management of data.
- **Analysis and Design:** This course covered systems analysis and design of both object-oriented and procedural based systems. Here I learnt how to conduct user requirements, feasibility studies and produce design documentation such as user manuals and testing
