PAYE Modernisation – Submitting the ‘List of Employees’

In preparation for PAYE Modernisation, Revenue will shortly request schools, as employers, to submit a ‘List of Employees’ through Revenue’s Online Service (ROS). Typically, this list will relate to the ancillary staff employed in the school such as caretaker, secretary etc.

Submission of this list will ensure that both Revenue and the school’s records are correct and aligned and that schools will receive the most up to date employee information to calculate their deductions. It is **essential that schools ensure the accuracy of their ‘List of Employees’ before submitting it to Revenue.**

Once the list has been submitted to Revenue, school employees included on the list but not previously registered with Revenue will now be registered on Revenue’s records. Personnel not included on the list but previously registered with Revenue as working in the school will be removed from Revenue’s records.

If there is a difference between Revenue’s records and the school’s records, the school will be asked to confirm that the list is to be processed. If there is a significant difference, the list will be rejected and the school will be asked to contact the Employer Helpline on 1890 25 45 65.

Steps to take

If your school uses a payroll software package, the payroll software package should be able to generate the list of employees from their payroll system. Once generated, it is important to ensure the list accurately states the current employees with correct PPSN numbers. The payroll software package provider will have instructions via online or phone support on how to upload the information to ROS. The steps involved in completing the submission can be found in Appendix A.

OR

If your school has engaged someone to do your payroll for you, contact them to ensure that the correct list is uploaded to ROS.

If your school is still using a manual payroll system, the FSSU strongly recommends that your school switches to a payroll software package or engages someone to do your payroll. Revenue has created a detailed step by step guide (which includes relevant ROS screen shots for illustrative purposes) which will assist schools in submitting their ‘List of Employees’. Uploading the List of Employees

If your school currently uses a payroll software package, take the following steps once you have generated the list of employees from the payroll system:

1. Sign into ROS as normal;
2. Go to My Services and click on the 'List of Employees' link under 'Employer Services';
3. Select the employer registration number for which you are uploading the List of Employees and attach your List of Employees file (XML or CSV) from your computer to upload. If there are multiple files to be uploaded the screen will have an add button available as well as a delete button;
4. The file format will then be validated to ensure that the file format is correct and all required information is provided. If there are any errors, the relevant line item will be specified. Any validation errors must be fixed before the file will be accepted.
5. Once validation is complete, click the 'submit' button. You will be reminded of the importance of ensuring that the information included in the list is correct.
6. Finally, sign and submit the file by entering your ROS Digital Certificate password.
7. Once signed and submitted, an acknowledgement screen will inform you that your file is being processed and you will receive a ROS inbox message once complete.
