PAYE Modernisation

Changes to myAccount on Revenue website applicable to employees

Please inform employees of the following information.

As part of PAYE Modernisation, Revenue has enhanced myAccount to include payroll details.

1. This service allows

- **employees** to view their pay and statutory deductions information reported by their employer to Revenue.
- Where an **employee** has a query about the pay or statutory deduction information shown in myAccount payroll details, or on their payslip, they should first contact their employer.
- Where Revenue does not have a submission on record the **employee** will be advised that there are no pay and tax details on record.
- Any inaccuracies or omissions in the pay or submissions should be corrected by employers and an amended submission made to Revenue as soon as possible. Employers should review their payroll practices to avoid reoccurrence.

2. Payroll details in myAccount

Payroll details are available under the heading “Manage your tax 2019” within myAccount for all **employees** registered for myAccount.

Included in myAccount payroll details are:

- Pay and deductions submitted by employers in relation to payments made after 1 Jan 2019.
- All employments for the employee and their jointly assessed spouse including employments from other employers or pension providers, multiple employments and ceased employments.
- Gross pay, income tax, USC, employee PRSI, LPT & pensionable deductions (if in pensionable employment).
- Information from payroll submissions, including amendments, will be available to view from the 15th of the following month. For example, employees will be able to see pay and tax details for the month of April, as well as prior months, from 15 May onwards.

Not Included in myAccount payroll details are:

- Employments that are not yet registered with, or reported to Revenue.
- Payroll information where no submissions have been made by an employer.
- Employee information where the PPSN was not included in the payroll submission. This information will become available to the employee once the employer makes a submission that includes the employee's PPSN and the Employer Reference used for previous submissions.
- Current month information.
- Personal deductions not reported to Revenue, for example Credit Union, membership fees etc.
- Employer information such as employer tax liability or payments.

3. End of Year Statement

From 2019, an end of year statement will be available to the employee in [myAccount](#). This will include details of all pay and deductions from all employments for that tax year. This replaces the P60. **The employee can print the end of year statement from myAccount.**
