## Checklist for recording Payroll costs in Sage 50

### 1. Vital that payroll costs are recorded correctly in Sage 50

- Supporting paperwork for payroll?
- Payroll cost analysis which is summarised under the relevant nominal cost codes
- Record costs with reference to the Payroll week numbers for 2022

### 2. Recording payroll costs in Sage 50

- Method 1 – Simple method of coding & recording Net Pay payments & Revenue Payments using the Bank Module
- Method 2 – Payroll Journal method using Control Accounts

### 3. Always review the postings to Sage 50

- Review Sage 50 for accuracy of coding & check the Payroll Week Number sequence
- Look up the **nominal ledger activity** for the payroll expense codes – all debit postings?
- Monitor the balance on all the payroll Control Accounts ( Codes 2200 – 2250)
- Review the **Bank reconciliation report** for old outstanding bank payments and adjust if appropriate

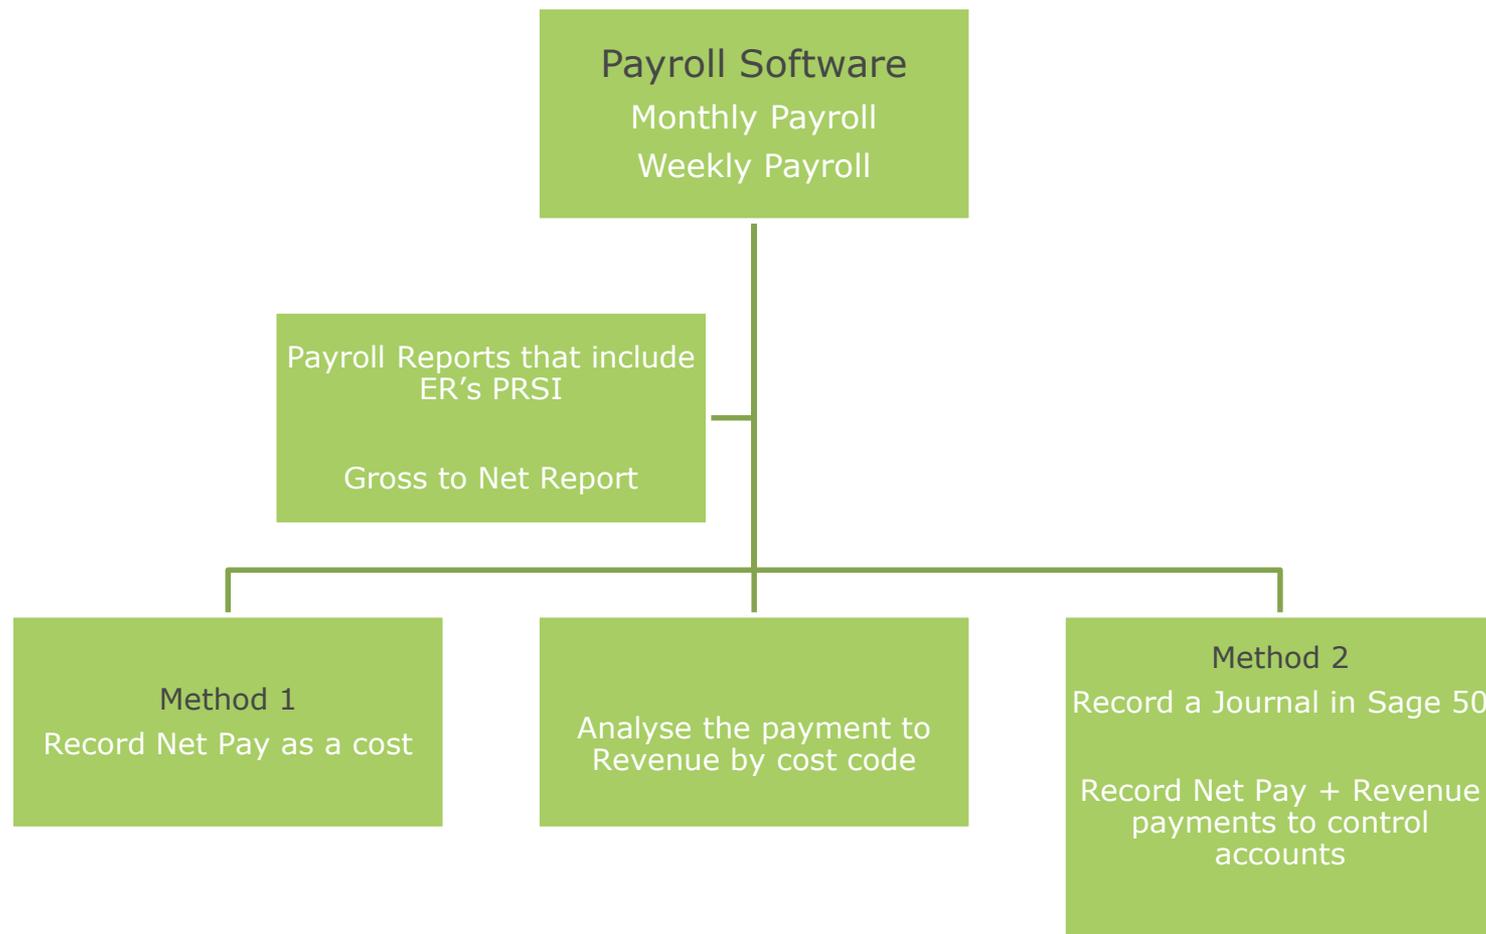

### 4. Review the month end BOM reports

- Compare the payroll expense codes against budget and prior year
- Verify the accuracy of the balances showing in the Control Accounts in The Balance Sheet at each month end
- Provide the Gross to Net Payroll report to the Finance committee for the relevant week numbers

### 5. Monitoring & Reporting on Payroll costs at month end

- Familiarity with the Gross to Net reports from School Payroll software will build confidence around reporting

- Note the Week numbers when recording payroll transactions as they are an accuracy check for recording payroll costs in Sage 50
- Review the postings to Sage 50 – checking for the week number sequence to ensure that postings are complete and there are no duplications
- Record the payment to Revenue via ROS accurately by relevant cost category. This requires a report from Payroll analysing the figures returned to the Revenue for the specific period

# Updating Sage 50 for Payroll costs

Note that in revised FSSU Chart of accounts –

PRSI nominal code is no longer used.

Both costs should be coded to relevant wages code, 6010,5010 etc

## Two methods to record Payroll in Sage 50

1. Bank Payment Program –  
In the background the postings are  
Dr : Cost code with payment  
Cr : Bank Account

2. A journal entry is the other alternative program that will update our accounts  
Dr: Cost code with full cost

Cr: Control Accounts

Bank payment for wages and revenue payments coded against the control accounts

Dr: Control Account

Cr: Bank

# Recording Payroll costs in Sage 50 – Overview

## Which method is used by VSS currently?

- 70% - using the bank payment method to record payroll costs
- Nervousness about the Payroll Journal method

## Method 1 – Using Bank Payments module to record payroll costs – Date driven

- Bank Payments – Net Pay coded to relevant wages cost codes at time of payment
- Payment to Revenue – Broken down by nominal code by wages type, admin etc Cost appears in accounts at date of payment.

## Method 2 – Using Journal Module and Bank Payment module – Date driven showing full cost and amounts owing

- Dr: Total Gross pay + Er's PRSI to 6010 for admin wages
- Cr: Net Pay Control Account (2200) & Cr 2250 with amounts due to Revenue
  - *Accounts reflect up to date wages costs and amounts owing to Revenue*
  - *Accuracy check – Balance on Control accounts should be nil or can be explained and adjusted if necessary*
- Payments to employees and revenue are coded to respective control accounts – no need to worry about cost categories – speeds up Bank entry
  - *Any queries on payroll – information clearly laid out in control accounts*

# Method 1 – Using Bank Payments module to record payroll costs

- Benefits
  - No debits and credits involved
  - Basic bank payments entry
  - Can suit a small straightforward payroll situation
  
- Drawbacks:
  - Payroll is growing in importance in Schools
  - Inefficient for recording large or complex payrolls
  - Costs understated in month we pay/record the net pay only
  - Revenue liability possibly not showing in month wages were processed
  - Payroll cost analysis report is needed to break down the revenue payment under its cost category – good communication is vital
  - Year end – Full payroll cost must be recorded in Sage 50
  - Any queries on Revenue payments – not as easy to look up in Sage 50

# Benefits of using Payroll Journal & Control Accounts

- ❖ More efficient in analysing a larger number of complex payments
  - One print out of all payroll costs for the month
- ❖ Accuracy Check -Verifies that payments made match the payroll submission – Balance on payroll control accounts should be monitored
- ❖ Assists in utilising more automated payroll/accounting software features such as bank files or import feeds
- ❖ Allows for easy accounting of refund situations or over/underpayments
- ❖ Gross to Net report that is issued at month end – in a better position to answer queries

# BOM Reporting requirements for Payroll costs

## BOM Income & Expenditure Report

## Balance Sheet Year to Date (From Brought forward)

- Balances on Control Accounts are checked for accuracy
- Bank rec report is clean
- No Payroll journal - then bank rec should have an outstanding payment to revenue at least at August m/e

## Gross to net payroll reports since last board meeting

(should be reviewed and signed off by principal and one member of the finance subcommittee, who is also a member of the board).
