Change Financial Year

If you have not yet completed the year end process for 31 August 2022 you cannot import the budget for 2023/2024. See [here](#) for guidance on rolling over the financial year in.

- 4.3 Select "AOD" for the department.

- 4.4 Then select 'Import'.
- 4.5 A new feature has been introduced, that shows the user the queue at which they are placed while importing the required file. The monthly budget import details start successfully being imported, once the turn-in queue comes.
- 4.6 If you have the budget broken down between departments and wish to compare different department income and expenditure against budget, you will need to prepare a separate import template for each department. After each department balance has been imported the remaining balances should be entered under "AOD".  
This is not required for the board of management reports recommended by the FSSU and is at the discretion of the school.
- 4.7 Run the Income & Expenditure report for September 2023, to verify the budget figures.

## 5 Editing the budget in BrightBooks
